

Corporate Profile

Start with a group of talented insurance executives that have nurtured historical success in some of the top insurance companies worldwide. Then pair it with a shared value system that drives the company's commitment to every client throughout the entire insurance lifecycle. The result is Darwin.

Founded on the belief that almost everything in the specialty insurance segment can be done better. Darwin emerged in 2003 under the leadership and direction of Stephen Sills, founder and former CEO of Executive Risk. Darwin is the collective offspring of the company's intellectual capital – and it runs deep throughout the entire organization.

Our Company

Darwin is a specialty insurance group based in Farmington, Connecticut. The company is focused on the professional liability insurance market and underwrites directors and officers ("D&O") liability for public and private companies, errors and omissions ("E&O") liability insurance, and medical malpractice liability insurance. Darwin member companies include Darwin Professional Underwriters, Inc., Darwin National Assurance Company (DNA), and Darwin Select Insurance Company (DSI). DNA and DSI have earned a financial strength rating of "A- (Excellent)" from A.M. Best Company.

Darwin is traded on the NYSE Arca exchange under the ticker symbol, "DR." The company became NYSE Arca's first listed company with DR's initial public offering in May 2006.

Our Strategy

What makes Darwin unique is that we are constantly evolving the specialty insurance model to identify and take advantage of coverage, price, and service gaps. It's survival of the fittest, so Darwin is nimbler, more responsive and tightly focused. We're highly selective in the products we offer, the partners we team with, and the risks we cover. For our clients, Darwin offers a more evolved product line, helping them adapt to change and assuring that they don't just survive – they thrive.
